

Featherfolio

Installation Options

Shadowboxes installed on a wall as framed art

Permanent Installations pinned directly on a wall, in an alcove, or suitable space protected by glass or acrylic (pictured, Atlanta Hawks owner's lounge)

Non-Permanent installations not protected by glass (pictured on front, Bainbridge Museum of Art)

CARVED FEATHER INSTALLATIONS

custom-made for your home or business

Display a truly one-of-a-kind work of art, made specifically for your space by world-renowned artist Chris Maynard

Deceptively delicate, almost weightless and naturally tough, the sustainably sourced feathers are elevated 1/2 inch from the background and attached via stainless steel pins. The feathers are backed with thick archival papers. Made out of the strongest of organic materials, feathers are meant to survive rough natural environments... and your home or business.

We'll work on the concept with you, the designer, architect, or builder to complement and enhance any space. The bulk of the work's creation is in Maynard's studio, making installation quick and easy.
